MANUAL

TECHNICAL & SERVICES FACILITIES

EXPOSYSTEM
WE KNOW HOW

Benchmark in Modern Exhibitions

EXPOSYSTEM was founded in 1993, in Thessaloniki. Due to its successful business model, in 2002 EXPOSYSTEM started offering exclusive technical support at ATHENS METROPOLITAN EXPO, the largest and newest exhibition and congress center in Athens. In 2003 EXPOSYSTEM starts operating a branch and storage areas of 2.500 sq.m. in Anthousa, Attica

The Exhibition Organizers and the Exhibitors are offered quality services due to the cooperation between the Mediterranean Exhibition Center (MEC) and the two following companies: Mediterranean Trading International Exhibitions, which is the managing company of the Exhibition Center, and EXPOSYSTEM S.A., which offers technical support.

EXPOSYSTEM's technical support to exhibitions, conferences and events includes a great number of quality services, covers all exhibition needs and secures the smooth running of every event - during its preparation/construction, operation and dismantling.

The growing needs of both organizers and participants in this area have led EXPOSYSTEM's personnel to the implementation of a highly successful, integrated management system, which meets all the needs of their customers and offers high return on their investments and high quality services at the right time.

Advantages

- > Commitment to the exhibition & conference needs
- > Technical expertise
- > Highly specialized and experienced personnel
- > Integrated portfolio of exhibition services
- > Use of modern technical infrastructure and design software programs
- > Excellent knowledge of the exhibition venues due to its exclusive partnership with THESSALONIKI EXHIBITION CENTER, ATHENS METROPOLITAN EXPO and MEC

Services

- > Standard and upgraded types of shell scheme stands (OCTANORM system)
- > Furniture and exhibition equipment
- > Floors and carpets
- > Electrical devices and services
- > Digital printings for area branding & signage
- > Audiovisual equipment
- > Rigging services
- > Construction of customized stands
- > Printing services
- > Photoshoots - Video Recordings - Live Streaming

EXOSYSTEM'S customer-oriented philosophy, focus on the exhibitors' needs, expertise and know-how make it a significant contributor to the success of your participation to any exhibition or event.

The Center of all Business Activity

The Mediterranean Exhibition Center - MEC has been operating since 1989 hosting a variety of commercial and consumers' exhibitions as well as conferences, corporate, cultural and entertainment events.

It is located on 301 Athinon - Lavriou Avenue, in Paiania, easily accessible both via Lavriou Avenue (301, Lavriou Avenue) and Attiki Odos (Exit 17 - Kantza).

It covers an area of 47,000 m² (12,000 m² exhibition area [1 Hall] and 35,000 m² outdoor parking area).

The upgraded facilities, the operational infrastructure and the high level of services provided, offer flexibility and comfort to organizers and participants, satisfying even the most demanding requirements for the successful organization of exhibitions, conferences and events.

Consultancy

You are more than welcome to contact us in order to talk about your requirements!

Our highly specialized and experienced personnel are definitely going to offer unique suggestions and successful solutions within your budgets.

Designing Solutions

Our designing solutions reflect our belief that aesthetics and functionality are equally important.

Recognizing the uniqueness of every client, we offer solutions that are targeted to your own personal needs and desires.

Therefore; we guarantee your dynamic presence in the highly competitive environment of exhibitions.

Supervision of your Stand's construction [from the very beginning till the very end]

By constantly monitoring the construction of your Stand, we aim at reducing your stress.

Due to our close supervision, you no longer have to worry about the coordination of the Stand's construction process and its final delivery.

Remarks on the Price-List

For your order to be valid, you should fill out the Order Form with pricing information, stamp and signature. The latter should be sent to us no later than 20 days before the opening of the exhibition via email mec@exposystem.gr

The completion of your order requires the full payment of the respective amount by bank transfer to the following accounts (IBAN) and the forward of the deposit slip via e-mail.

NATIONAL BANK OF GREECE: SWIFT BIC CODE: ETHNGRAA

IBAN Number: GR13 0110 8400 0000 8404 7023 795

PIRAEUS BANK: SWIFT BIC CODE: PIRBGRAA

IBAN Number: GR62 0172 2310 0052 3107 2349 059

ALPHA BANK: SWIFT BIC CODE: CRBAGRAA

IBAN Number: GR51 0140 4120 4120 0200 2002 276

- > The exhibitor holds the full responsibility for his exhibits (including machinery-exhibits) and thus; he must take all the necessary safety measures regarding static and operation.
- > The maximum height of the Stands is determined by MEC's Operation Regulations which is published at its site, as well as the Operation Rules of the exhibition
- > Should you object or disagree to any service provided by EXPOSYSTEM, please inform our Customer Care Department by the end of the exhibition's opening day.
- > Our equipment and services are only provided during the official duration of the exhibition.

Not Permitted

- > Drilling/nailing and painting of panels and aluminum frames (for suspending purposes, you may request special hooks from the Exhibitors' Service Desk)
- > Rigging any item from the ceiling or any other structural part of the halls, without any prior approval, requirement or order (Rigging Services).
- > The rigging of any equipment or object from the lighting, plumbing, fire protection, ventilation and air-conditioning networks or from any other point of the Exhibition Center's ceiling, pillars, and walls.
- > Covering walls and corridors, electrical and water supply installations.
- > Any intervention to the electrical installations without prior approval, requirement or order (Electrical Equipment Services). No such intervention is allowed at Standard Booths.
- > Power supply to stands whose electrical installations have been completed by the exhibitors' partners and electricians of the exhibitors will only become available after the latter's submission of the necessary documents: the electrical plan, declaration of work undertaken and the order form stating the requested power in KW.

Custom Made Stands - Special Constructions

Clarifications

- For carpet orders, the carpet is placed prior to the Special Construction.
- The electrician, responsible for the installation of your stand, must necessarily submit a stamped Installation Permit document. He is allowed to stamp the document only if he is a university or technical school graduate. Otherwise, the Association of Electricians has to verify it. Along with the latter, he must also hand in an Electrical Method Statement, analyzing the electrical works that will be carried out.
Another prerequisite for the electrification of your Stand is the former submission of an Electrical Plan, stamped by an electrical engineer or the Association of Electricians (*Solemn Declaration p. 63*).
The above mentioned Electrical Plan should state the requested total volume (KW) and type of electric power (1phase/3phase) and the exact position of the Distribution Board. This information should also be mentioned in the Order Form, claiming the need for power supply and the installation of the Distribution Board. The Order Form is completed by the Exhibitors themselves and has nothing to do with the documents that need to be submitted by the electrician (*Order Form p. 38-39*).
- In case the exhibitor installs his own distribution board, the board must be three-phase with a three-phase voltage relay.
- If your electrician cannot provide you with such a board, you can order one from EXPOSYSTEM SA (*Order Form p. 35*).
Please, bear in mind that a power supply board for machinery cannot be provided.

Electrical distribution boards available

- 3, 6 or 12-way three-phase distribution board (380V, female-ended, red-type Legrand connector 5x32) -for lighting or motion-sensor lights)
- In case the exhibitor does not comply with the above mentioned instructions or receives unauthorized electrical power and has not submitted a certified and complete electrical plan on time, EXPOSYSTEM reserves the right to immediately seize his power supply without any notice.

Standard Shell Scheme Stands

Clarifications

- No third parties are permitted to make any electrical installations or constructions within the Type 2 exhibition stands. However; the exhibitor can ask for extra lighting (if need be) by completing and filing the relevant Order Form (*Order Form p. 38*).
- An electrical switch board, plugs and lightings are necessarily positioned within the stand and cannot be removed or replaced. If you wish their being placed in a particular position, you need to send a plan of your Booth 10 days prior to the exhibition's opening.
- Orders that concern electrical installation or/and constructions (e.g. *installation or connection of floodlights, storage areas, lighting grid systems*) cannot be executed without a relevant plan (*Floor plan form p. 62*). The latter must be submitted at least 10 days prior to the exhibition's opening.
- Please note that no fixings may be made directly on the wall panels or the exhibits/furniture. If need be, please contact the EXPOSYSTEM Exhibitor Service Desk and a wide range of solutions will be offered to you. Moreover, all materials must be removed from the wall panels at the end of the exhibition, without causing any damage. The latter always burdens the exhibitor.
- If a different type of exhibition stand -rather than Type 2- is requested (such as Type 1 *without constructions*) in less than 10 days prior to the exhibition's opening, the exhibitor is additionally charged with the dismantling/decommissioning cost. (*Order Form p. 41*).
- The construction materials (*necessary for storage rooms, offices, etc.*) and the exhibits/furniture can also be placed outdoors, as long as the latter are roofed and protected from extreme weather (e.g. *heavy rain, wind*).
- Any alteration to the carpet color is subject to our products' availability -provided that your order is completed on time- (*Order Form p.51*).

Departure

- After the end of the exhibition, exhibitors first have to settle any financial obligations with EXPOSYSTEM. Secondly, they have to remove all exhibits and decoration materials used during the exhibition within the time limit specified by the Organizers. Should the exhibitors leave any construction materials on site, an additional removal cost will be charged.
- **Furniture provided by EXPOSYSTEM is recollected in the last evening after the exhibition's closing.**
- EXPOSYSTEM bears no responsibility in case of loss, damage, etc. of exhibits during the preparation, operation and dismantling of the exhibition. Security and guarding services are exclusively related to the Exhibition Center's building installations. Therefore; you are kindly requested to remove all small exhibits or personal belongings (e.g. laptops, computers, TV sets) in the evening of the exhibition's final day

Standard Booths

Description

- Aluminum, silver colored octanorm frame, with columns, horizontal girders and filling material of white colored pvc - 2.5 m. height
- 30 cm fascia with exhibitor's logo / company name / stand number (1.52 x 0.20 m) at the Stand's open sides (2.20 m in height), with aluminum girders and filling material of white PVC
- Aluminum girders are placed on the roof (height: 5,50cm). Carpets are placed on the floor and each organizer can pick the color of his choice.
- Furniture and electrical equipment for standard booths are provided in accordance with the Facilities Services of each organizer.

CLARIFICATIONS

- On standard booths no electrical installations or constructions by third parties are allowed.
- The electric panel, the sockets and all luminaires need to be placed in the structure and cannot be removed. If you wish their placement at a specific point, you are kindly requested to provide us with a draft up to 30 days prior to your entering the exhibition area.
- Power supply (kw) is included in the luminaires' prices.
- Both the installation and the power connection of the exhibitor's luminaires can only be completed if the latter are led type and have a Schuko plug at their very end, are grounded and in good condition.
- The kw pricing is multiple of 1kw.
- Multi plugs are not provided.
- Due to limited availability, orders are executed according to priority.
- **In case of loss or damage, the equipment must be immediately replaced and compensation -determined by our company- will be claimed.**

ELECTRICAL CONTRACTOR DECLARATION FORM

Having accepted the terms and conditions mentioned on pages 11-12 of the "Services Guide", which refer to the preparation and installation of Pavilions' Special Constructions, I assign the duty of the safe operation and the monitoring of the electrical equipment of my exhibition stand to the licensed electrical installer

and I submit -as an attachment- the relevant **Electrical Plan**.

You are kindly requested to design your exhibition stand and signify the exact spot of the distribution board as well as the requested volume and type of electrical power using floor plan form (p.62)

CLARIFICATIONS

- The Pavilions which require Special Constructions must include a Distribution Board with protective relays. If your own electrician cannot provide one, you can order it from EXPOSYSTEM. Power supply board for machinery cannot be provided.
- A prerequisite for the electrification of your stand is the former submission of an Electrical Plan, stamped by an electrical engineer (along with the Association of Electricians permit and an Electrical Method Statement, analyzing the electrical works that will be carried out).
- The kw pricing is multiple of 1kw.
- Power strips are not available.
- Due to limited availability, orders are executed according to priority.
- *In case of loss or damage, the equipment must be immediately replaced and compensation -determined by our company- will be claimed.*

To confirm your order, you must send this form and deposit proof via e-mail: mec@exposystem.gr at least **20 days** prior to the opening of the exhibition.

CLARIFICATIONS

- MEC checks all rigging plans in order to verify their implementation or make necessary amendments.
- EXPOSYSTEM retains the right not to fulfill exhibitors' requirements due to restrictions caused by the conditions of the roof above their Stand or due to security reasons. The company follows regulations determined by MEC, which is responsible for approving all requests.
- Only EXPOSYSTEM and its certified - authorized partners are responsible for installing roof rigging points in all exhibition areas.
- All relevant services are offered after thorough study of various factors including exact location, weight and height of the rigging equipment.
- The request form concerning rigging services must be filed at EXPOSYSTEM no later than 30 days prior to the beginning of the exhibition's preparation works.
- This request form concerning rigging services must be accompanied by the Rigging Plan, which includes all required rigging equipment and details concerning the electrification system and the exact locations, weight, height, dimensions and descriptions of the materials used.
- Max weight per rigging point 50Kg.
- The customers are fully responsible for any possible damages that may be caused by their inaccurate information giving or rigging services that have been offered by themselves, their employees or contractors. EXPOSYSTEM does not take any responsibility for roof rigging- or any other constructions made by the customers themselves.
- All former rigging services will be exclusively offered for the purposes of the exhibition reported in this request form and will be applied to the reported Stand positions and surfaces
- Due to limited availability, orders are executed according to priority.

To confirm your order, you must send this form and deposit proof via
e-mail: mec@exposystem.gr
at least **20 days** prior to the opening of the exhibition.
